

RF Shielded Accessory Modularity - PCB Combined Filter System

SKU#: INV07-2000X

Inova series PCB structure filters can be assembled with DB25, DB9, USB, RJ45, DC interfaces according to customers' requirements, providing great convenience for customers' test equipment connection, with small space occupation, high isolation, compact structure, high integration degree. Widely used in shielding cabinet and other equipment.

PRODUCT CONFIGURATIONS

| | PART NUMBER | DESCRIPTION |
|---|-------------|------------------------------------|
|  | INV07-20001 | DC*1, DB9*1, Dual USB2.0*1, RJ45*1 |
|  | INV07-20002 | DC*3, Dual USB2.0*1, RJ45*1 |
|  | INV07-20003 | USB 3.0*6 |
